### CITY OF BEACON'S ICONIC DUMMY LIGHT IS BACK UP

Today the City of Beacon Highway Department completed the repair, restoration, and reinstallation of Beacon's beloved Dummy Light, located at the intersection of Main and East Main Streets. Dating back to 1926, the Dummy Light is a point of pride for Beaconites and continues to bring smiles to the faces of visitors and residents alike.

Highway Superintendent Michael Manzi coordinated the restoration efforts, working with internal staff and finding vendors in the surrounding area who could honor the light's historic roots. Manzi stated, "I want to thank my staff for their hard work in the repairs and reassembly of this Beacon icon."

Mayor Lee Kyriacou said "What a relief; I was getting ready to direct traffic with red and yellow lanterns this weekend. So, it is with great pleasure that can I announce the Dummy Light is back up, and I'm proud of the beautiful result thanks to the efforts of our dedicated staff."
