

**Backyard Trees- A Homeowners Resource-** Cooler temperatures. Cleaner air. Higher property values. Healthier residents. These are all benefits to the planting of trees.

Based on the success of last year's pilot program, the City of Beacon, is replicating its tree purchasing program again in 2025. This program will pass along a significant savings to homeowners interested in planting trees on their property. The trees offered in the 2025 program are close to 50% off retail and will be delivered directly to your home.

All tree listed would be delivered to the homeowner in 15-gallon pots (unless indicated below). Average tree height would be 5' to 10' with a trunk caliper of 1.25"-1.75". All trees will be delivered to your home in April 2025 before Arbor Day. Please note that the homeowner will be responsible for planting and care of the trees delivered. Please consider purchasing a TreeGator® with each tree. Treegator® Slow Release Watering Bags are the fastest, easiest, and most efficient way to effectively water a newly planted tree or shrub.

<b>Common Name</b>	<b>Scientific Name</b>	<b>Pot size</b>	<b>Mature Size</b>	<b>Cost</b>
