

BOIL WATER NOTICE

Loss of pressure in _____
City of Beacon
(name of Public Water System)

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using.
Or use bottled water certified for sale by the New York State Department of Health.
Boiled or bottled water should be used for drinking, making ice, washing dishes,
brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to Fishkill Ave from Conklin St to the City border at Prospect Street including
Meade Ave, Desoto and State St.
(describe area or attach map)

What Happened ?

At about 9:30am (time) on January 7, 2026 (date) the water system lost pressure
due to significant water main break on a 10 inch water. When water mains
lose pressure it increases the chance that untreated water and harmful microbes can enter your water.

*Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms
and may pose a special health risk for infants, some elderly, and people with severely compromised
immune systems. But these symptoms are not just caused by microbes in drinking water. If you
experience any of these symptoms and they persist, you should seek medical advice.*

What is being done ?

City of Beacon personnel installed a new section of water main and a contractor installed additional valving to assist with the isolation.
(describe corrective actions)

City of Beacon Operators will be conducting bacterial sampling of the water for safety.

It is likely that you will need to boil water for the next 4 days 12 hours until the problem is fixed. You will be informed when tests show that you no longer need to boil your water.

For more information, please contact:

Edward Balicki of the City of Beacon at 845-831-3136
(name of person) (name of Public Water System) (phone number)

or the Dutchess County Department of Health at 845-486-3404
(County/District Office) (phone number)

*Please share this information with other people who drink this water, especially anyone who may not get
this notice directly (for example, people in apartments, nursing homes, schools, and businesses).
You can do this by posting this notice in a public place or distributing copies by hand or mail.*
