

Backyard Trees- A Homeowner's Resource

Cooler temperatures. Cleaner air. Higher property values. Healthier residents. These are all the benefits of planting trees.

This program will pass along significant savings to homeowners interested in planting trees on their property. The trees offered in the 2026 program are close to 50% off retail and delivered directly to your home.

All trees listed will be delivered to the homeowner in 15-gallon pots (unless indicated below). Average tree height would be 5' to 10' with a trunk caliper of 1.25"-1.75". All trees will be delivered to your home in April 2026 before Arbor Day. Please note that the homeowner will be responsible for planting and caring for the trees delivered. Please consider purchasing a

TreeGator® with each tree. Treegator® Slow Release Watering Bags are the fastest, easiest, and most efficient way to water a newly planted tree or shrub. The City will distribute pre-ordered trees in April. Delivery details to follow! [Follow this LINK to order your tree today!](#)
